Certificate presentation for 3-day CSPS workshop

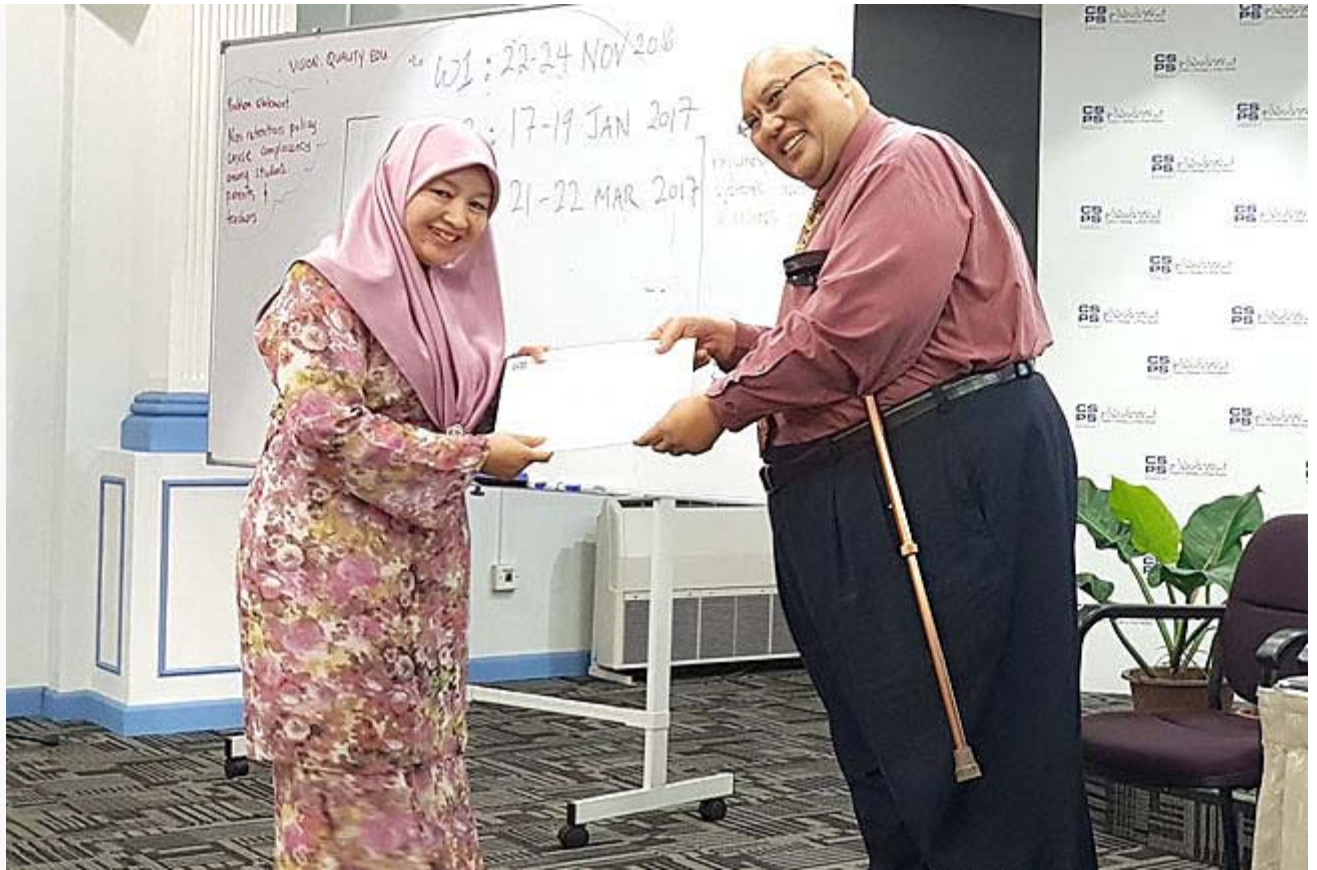

on: November 26, 2016In: [National](#)

THE Centre for Strategic and Policy Studies (CSPS) recently held a certificate presentation ceremony for 27 participants, who successfully completed the first in a series of Executive Development workshops on Strategic Foresight and Strategic Planning.

The certificates were presented to the participants by the CSPS Executive Director, Haji Mohd Rozan bin Dato Paduka Haji Mohd Yunos according to a press release issued by CSPS.

Responses to the three-day workshop have been positive, with one participant commenting, “It’s very helpful for our next strategic plan, which we have recently started to work on.”

Another said that he found the workshop particularly useful, as it “introduced various toolkits to formulate strategies in a structured manner, making them future-proof by challenging assumptions, and also the importance of engaging stakeholders in a collaborative manner.”

Many of the participants are recommending their top management level to attend the workshop series, especially those involved in strategic planning.

In January 2017, the participants will be attending the second and third parts of the workshop series, which are respectively titled, 'Strategic Planning Using Systems Thinking' and 'Action Learning and Evaluation'.
